

A Unique Solution for Protecting Privacy in Courtroom Environments

The Qt Conference Room Edition

When the judge asks the counsel to approach the bench, he typically wants the following conversation to remain private. However, it's often possible for the gallery and jurors to hear these private conversations as well. Depending on wall thickness, it might even be possible for unintended listeners to hear discussions occurring in the judge's chambers! Fortunately the Qt Conference Room Edition provides a privacy solution for any courtroom environment.

The Qt Conference Room Edition consists of a control module, two lighted privacy signs, and a series of direct-field sound masking emitters. When the judge turns on the control module located at his bench, it powers the sound masking emitters placed in the ceiling above the juror box and gallery. The emitters add a low level of background sound making human speech less intelligible. The lighted privacy signs can be installed to face the judge so he knows the system is operating, or one can be mounted to face the spectators if desired.

Product features

- Justices can easily turn the system on and off with the push of a button
- Control module and privacy signs provide clear indication that the system is activated
- Easy to integrate with other AV systems
- Smooth sound masking ramp up and ramp down to limit disruptions
- Can be turned on and off for meetings or left running at all times
- Energy efficient and consumes less than 7 watts of power
- Straightforward, low-impact installation
- Out-of-the-box support for areas up to 800 square ft.
- Option to add additional emitters for larger areas

What comes with the Qt Conference Room Edition?

- One wall-mounted ST 1000 control module
- One 4-gang adaptor plate for control module (or EU/UK 3-gang box)
- Two automatically lighted privacy signs
- Two 1-gang adaptor plates for privacy signs
- Two 50 ft (15.2 m) plenum-rated cables for privacy signs
- One power supply
- Eight Qt Emitters
- Seven 16 ft (4.8 m) audio cables
- One 50 ft (15.2 m) homerun audio cable
- One hole saw

About Cambridge Sound Management

Cambridge Sound Management, Inc., the global leader in sound masking, manufactures QtPro sound masking systems to help organizations across multiple industries protect speech privacy, reduce noise distractions, and fuel workplace productivity. Powered by direct-field Quiet Technology, QtPro works by emitting a uniform, barely perceptible background sound at the frequencies of human speech. Cost effective and easy to install, QtPro is deployed in hundreds of millions of square feet of space throughout the world including commercial organizations, healthcare facilities, financial services, government agencies, and educational institutions.
